

## PHILIPPINE EMBASSY IN NAIROBI CONDUCTS CONSULAR OUTREACH MISSION IN LILONGWE, MALAWI

**20 November 2021, Lilongwe, Malawi** - The Philippine Embassy in Nairobi, Kenya conducted a consular outreach mission in Lilongwe, Malawi on 20 November 2021, as part of Post's efforts to continuously provide consular services to Filipinos under its jurisdiction amidst the pandemic.

While adhering to the health protocols being implemented by the host country, such as mandatory wearing of face masks, use of hand sanitizer, and social distancing, the consular two-member team, composed of Mr. William Tan and Ms. Celine Bejar, was able to successfully process a total of twenty-one (21) passport applications, two (2) civil registry and two (2) authentication / notarials.

The outreach also included the display of posters and showing of gender and development-related infomercial videos from the Philippine Commission on Women (PCW) to further promote and encourage a general understanding of gender-based issues and challenges among the Filipino community.

The Filipino community in Malawi appreciated the services rendered during the mission, especially because the current Covid-19 situation limited their ability to travel to the Philippine Embassy in Kenya to renew their passports and avail of other consular services.
